PROFESSIONAL SUMMARY

Software Developer with strong experience in building applications using Swift and SwiftUI, and a solid foundation in software engineering principles. Focused on writing clean, maintainable code and designing scalable solutions. Experienced in working with APIs, databases, version control (Git), and collaborative Agile environments. Hands-on experience through the Apple Developer Academy and internships. Fast learner, analytical thinker, and driven to build reliable, real-world software solutions.

WORK EXPERIENCE

Apple Developer Academy | Aug - now (Part time)
iOS Developer | Riyadh

- Collaborated in multidisciplinary teams to design, develop, and prototype innovative iOS applications using Swift and Xcode.
- Participated in agile development cycles, including sprint planning, code reviews, and iterative prototyping.

Macromin solution Pvt Ltd | May- Apr 2025 (Internship)
iOS Developer | Remote

- Developed and tested iOS app features using Swift, SwiftUI, and Xcode within an Agile/Scrum environment.
- Collaborated using GitHub, and contributed to team standups and code reviews.
- Participated in UI/UX design discussions using Figma, and Apple's Human Interface Guidelines.
- Contributed to brainstorming sessions and competitor analysis to optimize app features.

Apple Foundation Program | Nov - Dec 2024 (Internship)
iOS Developer | Riyadh

- Developed an iOS app prototype with scalable architecture, using SwiftUI and Xcode.
- Designed and implemented core features like tab navigation, data handling, and responsive layouts.
- Followed Apple's development lifecycle and applied best practices in debugging and performance tuning.
- Collaborated in team-based workshops to improve app design, usability, and presentation skills.

IT Specialist | Aug 2023 Jun 2024 (Full time job)
Ali Al Sunaidi Foundation | Jeddah

- Increased system uptime to 99.9% by implementing comprehensive monitoring tools and strategies.
- Setting up software to meet specific needs and integrate with other systems.
- Installing network devices such as routers, switches, and access points.
- Identifying and addressing recurring issues to prevent future problems.

ACADEMIC HISTORY

Al-Baha University | 2019-2023

Bachelor of Computer Science Information Technology

TECHNICAL SKILLS

- **Languages/Frameworks:** Swift, SwiftUI, Python, Java, JavaScript, PHP, HTML5, CSS3
- **Backend & APIs:** RESTful APIs, Node.js, API Integration
- **Tools:** Xcode, GitHub, Firebase, Azure AI Studio
- **Design:** Figma, Sketch, Prototyping, UI/UX Design
- **Concepts:** Agile/Scrum, Debugging, Testing, Responsive Layouts

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Clear Communication
- Collaboration & Teamwork
- Adaptability
